

Add iLogic to the ribbon

- Right click a ribbon – Customize User Commands
- Filter rules/forms in the drop down
- Ensure the correct tab is listed
- Double-click a rule to add
- Add text or make large

Create a custom icon

- After adding, default icon is shown
- To create a custom icon use:
 - png format
 - 16x16px or 32x32px
 - External Rule Location
- File name:
 - Form or rule name
 - Light or dark
 - Small or large
 - png

Example: “Push Parameters.light.large.png”
